Publication List, Maarten F.L. Golterman

[9] The effective action for $\omega \rightarrow 3\pi$, $\omega \rightarrow \pi \gamma$ and $\rho \rightarrow \pi \gamma$, Nucl. Phys. B309 (1988) 188.

[58] Connections between lattice gauge theory and chiral perturbation theory (invited plenary talk), in: Proceedings of the Workshop on Chiral Dynamics, Mainz, Germany, 1997 (eds. A. Bernstein et al.).

[61] $K^+ \rightarrow \pi^+\pi^0$ decay at $m_K = 2m_\pi$, Phys. Rev. D58 (1998) 097503, with K.C. Leung.

[70] On the determination of non-leptonic kaon decays from $K \rightarrow \pi$ Matrix Elements, JHEP 08 (2000) 023, with E. Pallante.

[73] Large-$N_c$ QCD meets Regge theory: the example of spin-one two-point functions, JHEP 0101 (2001) 028, with S. Peris.

[79] Testing an approximation to large-$N_c$ QCD with a toy model, JHEP 0201 (2002) 024, with S. Peris, B. Phily and E. de Rafael.

[85] On the effects of (partial) quenching on penguin contributions to $K \rightarrow \pi\pi$, Phys. Rev. D69 (2004) 074503, with E. Pallante.

[112] Quenched penguins, the $\Delta I = 1/2$ rule, and $\varepsilon'/\varepsilon$, PoS LAT2006 (2006) 090, with E. Pallante.

[120] Possible duality violations in $\tau$ decay and their impact on the determination of $\alpha_s$, Phys. Rev. D79 (2009) 053002, with O. Catà and S. Peris.

[123] Contribution from duality violations to the theoretical error on $\alpha_s$, arXiv:0904.4443 [hep-ph], with O. Catà and S. Peris, contribution to the proceedings of the International Workshop on Effective Field Theories: from the pion to the upsilon, Valencia, Spain (2009).

[125] Applications of chiral perturbation theory to lattice QCD, arXiv:0912.4042 [hep-lat], invited lectures given at the Ecole de Physique des Houches “Modern perspectives in lattice QCD,” to be published in the proceedings.
